EDUCATION

Jaypee University of Engineering & Technology

Bachelor of Technology in Computer Science & Engineering

Guna, MP

Aug 2012 – Jun 2016

EXPERIENCE

Assistant Manager

Dec. 2021 – Present

Macquarie Group

Gurugram

- Built end-to-end backend for Country Risk Rating module — business formula-driven score calculation, multi-stage approval workflow with email notifications, and database persistence on approval/rejection
- Designed & built Counterparty Notes module with REST APIs supporting attachments & full CRUD operations
- Automated legal entity data pipeline (Trino → CSV → SQL Server) with row-count validation and staging checks, coordinating across 3+ downstream teams to eliminate manual processing
- Enhanced Credit Risk system with policy validations and business rules to prevent compliance breaches
- Led GitHub migration — set up dev containers, branching strategy, CI/CD via GitHub Actions; proposed rebase-check adopted by migration team to prevent trunk code overrides
- Mentored team members on Java, Spring Boot and Git workflows; conducted code reviews
- Stack: Java, Spring Boot, React.js, Microservices, SQL Server, AWS, Docker, Splunk, GitHub Copilot (AI-assisted development)

Consultant

Sep. 2019 – Dec. 2021

Genpact

Noida

- Built role management screen saving 500+ man hours annually — integrated with Oracle DB via stored procedures with full field validation and file upload/download support
- Enhanced enterprise Java applications with role-based access, UI/backend features and database updates
- Managed production incidents, job scheduling and system reliability across distributed environments
- Stack: Java, Spring, Oracle DB, Docker, AWS, Jenkins, New Relic

Senior Software Engineer

Oct. 2018 – Aug. 2019

Diverse Lynx

Noida

- Enhanced web applications using PHP, Zend, MySQL; migrated frontend from AngularJS to Vue.js
- Built automated data sync processes and IP allocation tooling with REST services

Software Developer

Jul. 2018 – Oct. 2018

Amdocs

Gurugram

- Resolved production defects and developed change requests in telecom order management using Java and Oracle DB

Software Engineer

Jul. 2016 – Jun. 2018

Narnix Technolabs Pvt. Ltd.

Delhi

- Built IoT-based home monitoring system using Java 8, Spring Boot, REST APIs following oneM2M standard
- Developed authentication and file management web app using Spring Security and Hibernate
- Built frontend interfaces using HTML, CSS and Vue.js

TECHNICAL SKILLS

Languages: Java, Go

Backend: Spring Boot, Spring MVC, Spring Security, REST APIs, Microservices, Kafka, Event-Driven Architecture, Hibernate

Databases: SQL Server, PostgreSQL, Oracle DB, Redis

Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD, GitHub Actions, Jenkins/Bamboo

Tools: Git, Swagger, Splunk, Grafana, New Relic, GitHub Copilot

PROJECTS

Event-Driven Microservices Platform | *Java, Spring Boot, Kafka*

- Designed and implemented event-driven microservices with Kafka-based async communication between services

Go Backend Platform | *Go, PostgreSQL, Redis*

- Built backend APIs with async processing, worker architecture and Redis-based caching
